

Company Profile

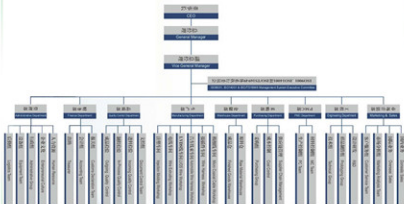

- 28 years R&D and production experiences in cable industry, since we founded in August, 1986
- Specialist in producing wire harness, micro coaxial cables, LVDS cables, automobile wire harness, HDMI cables, SATA cables, USB cables, computer peripheral cables, DC cables, bar connector, various types of wires.
- Have obtained UL, CUL, CCC, CE and HDMI certificates in succession and been certified with ISO 9001:2008, ISO 14001:2004 and TS16949.
- 2 manufacture factorie and 7 sales branches, which located in DongGuan, SuZhou, ShenZhen, HongKong, Italy, France and Singapore.
- With good reputation in domestic market, our products are also polular in international markets, such as America, Germany, U.K.,Italy, France, Turkey, Russia, New Zealand, South Korea, Japan and Indonesia, etc.
- Have established integrated environmental protection management system by adopting advanced ERP management software.
- have been awarded with the title of "Shenzhen Excellent private Enterprise with Honesty and Law-Abiding Management" and "Excellent Supplier" by many well-known companies for several times.

- **Company Vision**
- **People Oriented, Trust Management, Customer Orientation, and Keep Improving**
- **Environmental Policy**
- **Complying with laws and rules, Making Proper use of resources. Producing environment-friendly products. Preventing environmental pollution. keeping improvement.**
- **Quality Policy**
- **Faithful. Normative. Professional. Concentrated.**
- **Offering reliable and competitive products.**
- **Continually satisfying customers' changing and developing needs and requirements.**

Branch details

Organization Structure

Company History 1986-2004

1986

- Set up Zhejiang LiuChuan Electronics Co., Ltd.

1992

- Set up ShenZhen LiuChuan Electronics Co., Ltd.

1994

- Introduced in ISO9001 Quality Management System

1997

- Reorganized as ShenZhen LiuChuan Science & Technology Development Co., Ltd.

2002

- Set up HongKong LiuChuan Technology (Int'l) Development Limited.

2004

- Set up SuZhou KeLi Technology Development Co., Ltd.

2004

- Introduced ISO14000 Environmental Management System

Company History 2005-2011

2005

- Established SuZhou WuJiang KeLi Industrial park.

2006

- Introduced in ERP management System.

2007

- Set up DongGuan LiuChuan electronic Co., Ltd.

2009

- Introduced in TS16949 Quality Management System

2009

- Lanuched the production for Micor Coaxial Cables.

2010

- Began to build DongGuan LiuChuan Industrial Park

2011

- Competed the construction of DGLC Industrial Park

2012

- The new Industrial Park started to be used

Company Honour 2003-2012

2003

- LC was awarded as **'The excellent private enterprise'** by Market Supervision Administration of Shenzhen Municipality

2005

- LC was awarded as **'High-tech enterprise'** by Shenzhen Technology and Information bureau.

2007

- LC was awarded as **'The excellent Injury Prevention Enterprise'**.

2010

- LC was awarded as **'The excellent private enterprise of China'** in the Great Hall of the People in Beijing.

2012

- LC was awarded as **'The top ten competitive brand of the bar connector industry in China'** by the committee of the Chinese Competitiveness Forum.

HDMI Cables

LIUCHUAN

HDMI (High Definition Multimedia Interface) is a compact audio/video interface for transferring uncompressed digital data. It supports digital video data in formats, including high definition digital video signals such as 1080p, 720p, and 480p. It also supports digital audio data, including multi-channel digital audio signals such as 5.1, 7.1, and 8.0. The interface is a compact digital audio/video connector, complete with a single cable, and it is also used for digital video and audio signals. The interface is a compact digital audio/video connector, complete with a single cable, and it is also used for digital video and audio signals.

LVDS Cables

LVDS Cable • LVDS连接线

LVDS (Low Voltage Differential Signaling) cables, offering performance data transfer advantages in most laptop internal systems and monitors. LVDS cables offer superior performance, LVDS cables are designed for high data transmission rates, low signal degradation, low power consumption, and high signal-to-noise ratio. LVDS cables are designed for high data transmission rates, low signal degradation, low power consumption, and high signal-to-noise ratio.

RF Cables

RF Cable • 射频同轴连接件

QUANTUM

RF Cable (Precision) cable is used as a transmission line for radio frequency signals. It is a special cable with a very high performance and low loss. It is used in many fields such as communication, radar, navigation, and scientific research. The advantage of this cable is that it has a very low loss and a very high performance. It is also very easy to use and install. It is a very important component in many systems. It is used in many fields such as communication, radar, navigation, and scientific research. It is a very important component in many systems. It is used in many fields such as communication, radar, navigation, and scientific research.

DC Cables

DC cables connect devices and support the data and information with various types of connectors. The type of the connector and DC cables are standardized, it can apply different rules according to user's needs. In our factory we will make a cable for you to make an individualized connector. The application of DC cables can be divided into three categories: audio cable, video cable and power cable.

Cable KLC

Flexible Flat Cables

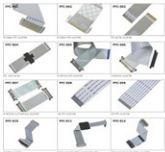

Flexible Flat Cable • 柔性扁平连接线

FFC (Flexible Flat Cable) refers to the extremely thin cable with high density contacts, applicable to various mobile phone cameras, and video camera CCD modules. FFC is a convenient form of ribbon cable, used in various flat boards. The cable consists of a flat polyimide or polyester film, with multiple conductive lines embedded in it or on its surface. It is made of copper, gold, nickel, and other materials, and can be processed into various shapes and sizes. The cable is flexible and can be bent into various shapes. The cable is used in various applications, such as mobile phone cameras, video camera CCD modules, and other electronic devices.

Connectors & Accessories

LIUCHUAN

These products are widely used for transmission of high frequency signals, high speed data, power supplies in various equipment, such as mobile phones, computers, telecommunication, digital cameras, medical instruments, etc. It is designed with high precision and high reliability, and has a wide range of applications. The products are widely used in various fields and have a good reputation in the market.

这些产品广泛应用于各种设备中，用于传输高频信号、高速数据、电源等。它们具有高精度和高可靠性，广泛应用于移动通信、计算机、电信设备、数码相机、医疗设备等领域。产品种类齐全，性能稳定，深受市场欢迎。

FFC/FPC Connectors

¹For example, studies on *Chlamydia* infections provide robust evidence of strong requirements. ²By contrast, some studies suggest that the requirements for *Chlamydia* are not as strict as those for *Neisseria* (see, for example, the review by Hooton et al. 1996). The findings on the relative impact of various risk factors for *Chlamydia* and *Neisseria* are also inconsistent. For example, some studies find that sexual intercourse with a new partner is more strongly associated with *Chlamydia* than with *Neisseria* (see, for example, the review by Hooton et al. 1996). Other studies find that sexual intercourse with a new partner is more strongly associated with *Neisseria* than with *Chlamydia* (see, for example, the review by Hooton et al. 1996). Finally, the role of genital tract infections, including *Chlamydia*, in the development of *Neisseria* is also inconsistent. Some studies find that genital tract infections are more strongly associated with *Neisseria* than with *Chlamydia* (see, for example, the review by Hooton et al. 1996). Other studies find that genital tract infections are more strongly associated with *Chlamydia* than with *Neisseria* (see, for example, the review by Hooton et al. 1996). CONFIRMATION OF HDMI® ATC TESTING	
This Tested Product identified below has successfully completed testing at the HDMI® Authorized Test Center with respect to the Test Specification listed below.	
PARTICIPANT	TESTED PRODUCT
Contact: <u>Ben Chen</u>	Category (i.e. Source, Sink, Repeater, Cables, <u>Cables/Cables II</u>)
Company: <u>Shenzhen Lianchuan Electronics Co., Ltd.</u>	Parent Model Number: <u>HDMI Type A to Type A cable</u>
Address: <u>No. 401, Keyuan Street, Xixiangcheng,</u>	Parent Model Number(s): <u>HDMI Cable Assembly, 48, 24AWG (48/24AWG)</u>
<u>Tongxin, Dongguan, China</u>	Distractive Model Number(s) supplied by Participant, not tested:
Phone: <u>86 769 8391 6000</u>	
Email: <u>benchen@lc.com</u>	
TEST CONFIRMATION	
Date of Issue: <u>Jan 11th, 2010</u>	Test Specification: <u>1.3b</u>
Test Center: <u>Shanghai</u>	Confirmed by: <u>Ben Chen</u>
Notes: 1. This confirmation is subject to the terms and conditions of the Authorized Test Center Agreement, and does not guarantee the testing or functionality of any product, component, unit, or assembly, or component and unit, other than those tested. Participants are responsible for the testing, functionality, interoperability and certification compliance of their tested products. 2. This confirmation is issued upon the submission of Participant fees required and Participant's representation that the product(s) tested pass the submission of Participant fees required and submission to the Tested Product and would successfully pass all the HDMI® ATC tests.
